TGEE SPOOLER 3.0

Automatic Bobbin Winder

The advantages of the TGEE 3.0 Automatic Bobbin winder:

- Enormous labour time / labour cost savings compared to single Bobbin winders
- Suitable for multiple Industries: Embroidery, Automotive, Sewing, Quilting and much more...
- All types of Bobbins and yarn possible: large, small, thick, stiff
- Capacity up to 70 Bobbins per hour, user-friendly for every day and with touchscreen control
- Sustainable device, made in The Netherlands with high-end quality parts

The TGEE SPOOLER 3.0 is winding in 1 cycle - without interference of the operator - maximum 15 Bobbins, where other machines can only wind 1 Bobbin at the time.

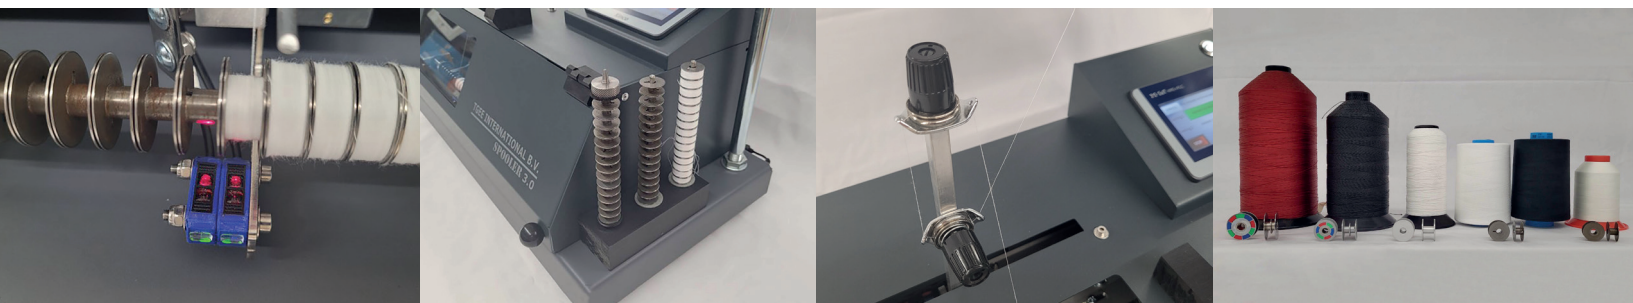

Do you have special yarn and bobbins? After our extensive testing we will give you proper advice.

After receiving the Bobbins and yarn from the customer, each machine will be adjusted to customer specifications for the most optimal result.

The automatic yarn cutting system cuts most yarn, thicker yarn can be cut with our hand cutting system.

We supply our customers worldwide with advice, machines and service through our dealer network.

Major brands worldwide have already preceded you: Bentley, New Balance, Cobaltix, Madeira, Toyota, Geislinger
